CASE: CUP2021-00035 - New Cingular Wireless

A 100-foot communication tower designed to be a “stealth tower” intended to resemble a bell tower associated with the church on site. The tower will be within a 50’x50’ lease area on the property. The lease area will include the tower, a generator, and a 10’x10’ walk-in equipment shelter, and be surrounded by a six-foot site obscuring wooden fence. The location of the tower was determined through a radiofrequency (RF) analysis of the existing coverage area in Terrace Heights. Access to the lease area is from Channel Drive via a 15-foot easement.
