Describe Fiscal Impact:

None

Background Information:

The Washington State Department of Transportation (WSDOT) has developed Standard Specifications detailing how work is to be performed on Roads, Bridges and other Municipal Construction. WSDOT typically updates these specifications every two years, and they have been updated for 2020. Yakima County has adopted these standards in the past, as they are the general standard for construction of roads, bridges, and are required to be used on ~~federally funded projects~~

Summary & Recommendation:

As the 2020 WSDOT Standard Specifications for Road, Bridges and Municipal Construction contain the general standard for constructing roads and bridges, it is recommended that the County adopt these standards.

Motion:

Pass the resolution.
