ADDENDUM TO STATEMENT OF VOTE
General and Special Elections
November 5, 2002

Due to the small number of ballots returned in the following precincts, they were combined with contiguous precincts as follows:

0165A ran with 0163A (4 ballots)

0305V ran with 0306V (3 ballots)

1702V ran with 1705V (4 ballots)

Note:

For countywide issues and races turnout figures on the Summary and Statement of Vote Report may not reflect the actual number of votes reported for particular precincts. This is due to the way the ballot counting program compiles turnout. **Votes compiled for each candidate and issue have been verified to be correct.**

With a multi-card ballot, for whatever reason, not every voter returns all of his or her ballot cards. Therefore, in order to calculate turnout, the ballot counting system is programmed to base turnout on the highest number of A, or B, or C cards ran. Several scenarios can affect the way the turnout is compiled:

Example

If:

Precinct 0101 returned 99 "A" cards, 99 "B" cards and 98 "C" cards.

Turnout for that precinct would be recorded as 99.

In compiling total turnout, the program uses the turnout for each precinct.

Example

If:

Precinct 0101 returned 99 "A" cards, 99 "B" cards and 98 "C" cards – turnout = 99

Precinct 0102 returned 95 "A" cards, 97 "B" cards and 96 "C" cards – turnout = 97

Precinct 0103 returned 94 "A" cards, 96 "B" cards and 96 "C" cards – turnout = 96

288	292	290	292
-----	-----	-----	-----

Total turnout would be reported as 292 total voters

The ballot counting program uses a batch process to compile turnout figures for each precinct. If an update is done for a precinct, the highest number of "A", or "B", or "C" cards for each batch establishes turnout figures.

Example

If:

Precinct 0101 returned 99 "A" cards, 99 "B" cards and 98 "C" cards – turnout = 99

An update is done with 8 "A" cards, 8 "B" cards and 10 "C" cards – turnout = 10

107	107	108	109
-----	-----	-----	-----

Total turnout would be reported as 109 total voters.

Ballot counting updates are done when counting daily batches of absentee ballots and to count the ballots reviewed by the county canvassing board.

Additionally, for those ballot cards referred to the Canvassing Board often times inspection boards will refer one single card (out of a set of A, B and C cards) to the Canvassing Board for determination. For example: if an A and B card was counted initially, and the C card was referred to the Canvassing Board, once approved by the board, that card would have been ran during another update. Therefore, when running that card, turnout is inflated by one additional number because the program is looking for the highest number of A, B or C cards ran for that batch. As a result, the turnout figures for this election are affected by a total of 98. **Please see the following addendum for turnout figures by precinct.**
