

TABLE 9-2.
EXTERNAL GRANT AND LOAN FUNDING SOURCES

Program and Agency	Description	Grant or Loan	Percentage Fundable	Requirements	Funding Amounts	Contact
Flood Control Assistance Account Program (FCAAP) - Ecology	Floodplain management program for comprehensive flood hazard management, and maintenance of flood control facilities	Grant	Planning: 75%; non-emergency maintenance: 50%; emergency maintenance: 80%	Ecology-approved CFHMP completed or in progress; participation in National Flood Insurance Program.	Maximum per county per biennium: \$500,000 for planning and non-emergency projects; \$150,000 for emergency projects	Tim D'Acci, Washington State Dept. of Ecology, Mail Stop PV-11, Olympia, WA 98504 (360) 407-6796
Public Works Trust Fund - CTED	A low-interest revolving loan fund to help local governments finance critical public works needs; eligible projects include repair, replacement or improvement of bridges, roads, domestic water, local ferries, sanitary sewer and storm sewer	Loan	100% local	Must be a local government with a long-term plan for financing public works needs; must also impose a 1/4% real estate excise tax for capital purposes	\$48 million available for state in recent years, but decreased significantly in current budget	Isaac Huang or Jeanette Johnson, CTED, P.O. Box 48300, Olympia, WA 98504-8300 (206) 586-0663
Watershed Protection and Flood Prevention Act (PL566) - National Resource Conservation Service	Provides technical and financial assistance to local governments in planning and construction of improvement in small watersheds; projects include flooding, erosion and sediment, conservation, development, utilization, and disposal of water	Grant	Up to 100% of construction cost. Local sponsor pays for land acquisition and urban stormwater elements	Several criteria, including favorable benefit-cost ratio, willingness of local sponsor to carry out project, and no critical environmental issues	\$62 million available in U.S. in 1993	Bill Erion, USDA Natural Resource Conservation Service, W. 316 Boone Ave., Suite 450, Spokane, WA 99201-2348 (509) 353-2336
Small Flood Control Projects (Section 205) - COE	Program to reduce flood damages through projects not specifically funded by Congress	Grant	100% of reconnaissance studies; 50% of feasibility study and construction cost	Project adopted for construction only after engineering feasibility, environmental acceptability, and economic justification is shown	Federal cost limit is \$4 million per project	Robert Newbill, U.S. Army Corps of Engineers Seattle District, CENPS-OP-EM, PO Box 3755, Seattle, WA 98124 (206) 764-33406

TABLE 9-2 (continued).
EXTERNAL GRANT AND LOAN FUNDING SOURCES

Program and Agency	Description	Grant or Loan	Percentage Fundable	Requirements	Funding Amounts	Contact
Hazard Mitigation Grant Funds (Section 404) - FEMA and CTED	Provides funds for projects that mitigate problems to avoid future recurrence of the same problem (i.e., acquisition of flood-prone areas instead of repair of damaged buildings)	Grant	75% federal plus additional state match	Requires Federal Disaster Area declaration and approved flood hazard management plan that Identifies mitigation measures	---	Martin Best, Washington State Dept. of Emergency Management, PO Box 40955, Olympia, WA 98584-0955 (360) 923-4985
Flooded Property Acquisition Program (1362) - FEMA	Provides option to purchase flood-damaged property from owners who incur repeated flood damages	Grant	100% federal.	Requires flood insurance coverage of structures involved. Structure must be damaged by over 50% of value	---	Robert Freitag, Federal Emergency Management Agency Region X, 130 228th Street SW, Bothell, WA 98021-9796 (206) 487-4701
Resource Conservation and Development Program - SCS	Provides project grants, advisory services, and counseling for installation of approved measures specified in RC&D area plans	Grant	Assistance with identifying grant sources	Proposals for measures are judged on relevance to the RC&D area plan's goals and objectives	---	Bill Erion, USDA Natural Resource Conservation Service, W. 316 Boone Ave., Suite 450, Spokane, WA 99201-2348 (509) 353-2336
Emergency Relief (ER) Funds - WSDOT and Federal Highway Administration Title 23	Provides technical assistance and construction funds from state and federal sources for temporary and permanent restoration of flood-damaged roadways	Grant	100% federal and state funding for restoration within 180 days; 86.5% funding after 180 days	Projects must be for restoration of damages caused by declared Federal Disasters	Depends on road damage	Sharon Price, Federal Highway Administration, 711 S. Capitol Way, Suite 501, Olympia, WA 98501 (360) 753-9558
Farm Program - USDA Farm Service Agency	Provides emergency loans to help cover farm and ranch production & physical losses	Loan	Loan limit is up to 80% of actual loss	Requires Federal Disaster Area declaration, special loan requirements	\$500,000 per disaster	Melissa Cummins, USDA Farm Service Agency, W. 316 Boone Ave, Suite 568, Spokane, WA, 99201 (509) 353-3272
