

## **IRRIGATED AG WORK GROUP**

Sunnyside Valley Irrigation District Office  
120 S. Eleventh Street  
Sunnyside, WA 98944  
Conference Call No.: 509-574-2353 PIN 2353#

Tuesday, April 19, 2016  
1:30 PM

### **AGENDA**

How do we solve the problem of high nitrates in the groundwater? What do you think the solution is going to be? Please bring three or four workable solutions that we can do some preliminary work on prioritizing.

What can the IAWG do to help us move that direction? Also submit three potential priorities for the IAWG's work for the coming year. We will also try to prioritize these if we have time.

- I. Welcome and introductions
- II. Update on the N Prioritization Project/ Nitrogen Loading Assessment. Perry Biehl. Gary Bahr
- III. WSDA update on meeting with WSU faculty. WSDA.
- IV. Status of the Deep Soil Sampling Project - Laurie Crowe
  - a. What do we do with the data?
  - b. What do we do with unspent funds?
- V. How do we solve the problem of high nitrates in the groundwater?
  - a. List and prioritize potential solutions.
- VI. What can the IAWG do about it?
  - a. List and prioritize potential working group priorities for the coming year.
- VII. Conclusions. Review of Action Items. Dismiss.
