YAKIMA, WA – The U.S. Army Corps of Engineers, in cooperation with the Yakima County Public Services Department, will begin rehabilitating the Yakima Authorized - Right Bank Levee along the Naches River and Yakima Greenway today. The project, designed to repair levee damage from spring 2017 flooding, will close a portion of the Greenway Path near Berglund Lake over the next month.

Levee rehabilitation includes hauling and placing or reconfiguring rock along the levee slopes both above and below water level with heavy equipment. Accordingly, Yakima Greenway users and recreationists are urged to exercise caution during construction by obeying project signage and avoiding construction areas.
