YAKIMA- Yakima County is installing a drive-up facility to better serve those who traditionally have come to the courthouse to deliver documents, pay fees, and other services.

This drive-up facility will reduce the number of people in the Courthouse, which is especially important in these times of COVID.

In the long term the drive-up facility will make it much easier for citizens to transact their business with the County. It will eliminate the need to find a parking spot or go through Security.
