<b>"Yakima County Water Resource System (YCWRS)"</b> is a water system organized pursuant to RCW 36.94.140 which provides service to the public in the form of "mitigated" or "water budget neutral" water supplies for domestic use through the withdrawal of domestic supply from a groundwater permit exempt well. The service area of the water system is all of the privately held property in Yakima County within the Yakima River watershed except those areas within the corporate limits of a City, within the exterior boundaries of the Yakama Reservation, or within the service areas of a Group A and Group B water systems in existence prior to January 1, 2018. The YCWRS holds senior water rights and allows the use of such rights by the public when wells are constructed and metered according to YCWRS procedures.	

<b>PLEASE CHECK BELOW THE TYPE OF BUILDING OR LAND USE PERMIT YOU ARE APPLYING FOR:</b>

_____		

## Statements of Understanding

- I understand a YCWRS domestic well permit for a permit exempt well may only be obtained concurrent with a building permit or a land use permit and is provided as mitigation to senior water rights.
- I understand a YCWRS Well Permit will not be issued until I receive an approved Water Availability Review by Yakima County and an approved Water Adequacy Determination by the Yakima Health District. I also understand I must provide a completed Water Metering Agreement to Yakima County before receiving a YCWRS Well Permit.
- I understand the amount of water withdrawal permitted from a YCWRS well shall not exceed 5,000 gallons per day.
- I understand a YCWRS well must be metered and that I am responsible for installing a meter box and meter setter in accordance with Yakima County standards.
- I understand once I have installed a meter box and meter setter that Yakima County will install the meter and transmitter.
- I understand once installed, the meter and transmitter will remain the property of Yakima County and all other materials required for the water service including but not limited to the well, pump, service line, meter box and meter setter will remain my property.
- I understand the County's cost to install the meter and transmitter is not included in the connection permit charge and that the actual meter and transmitter installation cost will be billed when charges have been finalized. The estimated meter and transmitter installation cost is \$\_\_\_\_\_.
- I understand YCWRS wells are subject to quarterly *Ready to Serve Charges* and *Water Consumption Charges* in accordance with Yakima County Code 12.08.
- I understand I am granting access to the meter on this parcel by Yakima County and its contractors for reading, repair, or replacement.
- I understand Yakima County is not responsible for the quality or quantity of water provided from the well.
- I understand water from the well is for use on the parcel within this application only and is not transferable for use at other locations.
- I understand if I am later required to connect to a municipal water source, the YCWRS water right with the parcel will be returned to Yakima County Water Resource System. Yakima County will pay for decommissioning of the well on the parcel as provided in Yakima County Code 12.08.
- I understand that should I not comply in the statements above and all requirements, enforcement action may be taken in accordance with Yakima County Code 12.08.
- I understand Yakima County shall be held harmless for misinterpretation or misrepresentation of documents I provide to obtain my permits.

I (print name) \_\_\_\_\_ have read and understand the Statements of Understanding listed above.
