

# 2021 ADULT VACCINE PROVIDERS

The Washington State Adult Vaccine Program provides vaccine to participating provider locations for adults 19 years of age and older who are uninsured or underinsured. Subject to funding, selected vaccine is available for providers to order for a limited time once each year. The vaccines offered change from year to year. This year adult flu vaccine is available at no cost. Below are the providers who have a limited amount of State Supplied Adult flu vaccine available.
