

Yakima County Solid Waste

Recycle Bin Request Form

Yakima County, Solid Waste Division has recycle bins available for use for public events within our county.

The bins can be reserved for free on a first come, first served basis. The bins are 40.5" tall by 24.5" wide and can hold 45 gallons of recyclables. (That is typically 220 plastic bottles and 350 aluminum cans.)

We also provide bags for each bin.

These are commingled bins. These bins are designed to collect aluminum and plastic beverage containers together in the same bin. Full bags of aluminum cans and plastic bottles may be dropped off when you return your bins to the landfill. You don't need to empty the plastic bag when placing in our recycling bin (large yellow "dumpster"). See location of our commingled recycling bin/dumpster at our administration office on the reverse side of this form.

All returned bags must be free of garbage and liquids.

For the BEST SUCCESS, place one recycle bin next to every garbage can.
