Fire Districts

Program Description:

Fire protection districts are authorized for the provision of fire prevention services, fire suppression services, emergency medical services, and for the protection of life and property in areas outside of cities and towns.

Revenue/Expenditure Comment:

Fire districts are defined as special purpose districts, and as such, levy regular property taxes to provide services to the public; additionally, with voter approval, the board of fire commissioners may issue bonds and make excess levies for specific purposes.

Each of the twelve fire districts in Yakima County has at least four different funds: (1) Expense Fund, (2) Reserve Fund, (3) Local Improvement District Fund, and (4) G.O. Bond Fund. Other funds may be established at the discretion of the board of fire commissioners. A summary of these funds for each fire district is shown above.
