Program Description:

The Geographic Information Services (GIS) Department provides geographic information and analysis to County departments, local and regional agencies and the general public. The GIS department works in conjunction with the County Assessor to maintain the digital map of parcels and the county WEB mapping application. GIS also updates street maps and produces a road atlas for all of Yakima County.

Major Objectives:

The major objective of the GIS department is to support the creation, use, and maintenance of a digital library of land use, transportation, demographics, health public safety, and resource management activities for Yakima County. GIS will continue to deliver more geographic information via the Internet with the goal of meeting the majority of the public's geographic and mapping needs from their place of business or residence.

Revenue/Expenditure Comment:

This department is funded through Public Works, grants, contracts with other entities, map sales and the General Fund.
